- MAUI
- SELENIUM
- REST API
- DESIGN PATTERNS

## PROFESSIONAL PROFILE

I am a .NET developer with expertise in C#, ASP.NET Core and MAUI for web, automation and mobile application development. Delivering top-notch solutions for clients' diverse needs.

## WORK EXPERIENCE

### Skill Development - JobInTech, Sala Al Jadida
**OCT 23 - NOW**

Enrolled in the Excellence DotNet Program, I am actively enhancing both my technical and soft skills to align with the dynamic requirements of the job market. Through diverse .NET and React projects, I've gained hands-on experience, refining my problem-solving abilities. This program ensures I stay current with industry trends, making me an adaptable professional prepared for dynamic challenges.

### Intern - MEGADEV, Salé
**JUN 23 - SEP 23**

During my internship at MEGADEV, I developed an AutoParc system using ASP.NET Core. This system efficiently manages vehicle-related tasks such as maintenance, accident tracking, and document organization. My role included designing and implementing key features, fostering collaboration within the team. This experience enhanced my ASP.NET Core skills and provided valuable insights into professional development practices.

### Intern - VITI CAR, Salé
**MAY 22 - JUN 22**

During this internship at VITI, I redeveloped their software for managing rental and vacant vehicles, transitioning from Visual Basic to the new .NET technology and implementing the C# language for enhanced functionality and efficiency.

## Data Management

- SQL Server
- MySQL
- Oracle PL/SQL
- MongoDb

## Data Modeling

- UML
- JSON
- XML

## Soft Skills

- Team Work
- Adapdability
- Problem Solving
- Multitasking
