AMERICAN LANGUAGE CENTER

PHYSICS BACCALAUREATE
2019 - 2020
JABIR IBN HAIYAN

SKILLS

- C#, Python, TypeScript
- ASP.NET Core, EF Core, API Technologies
- Blazor - MudBlazor, Angular - PrimeNG
- Clean Architecture, DDD, Design Patterns
- .NET MAUI for Hybrid Mobile Development
- SQL Server, MySQL, Data Modeling
- Git - GitHub
- Debugging, Performance Optimization, Exception Handling
- Agile & Scrum Methodologies

LANGUES

- Arabic - Native
- English - Proficient
- French - Intermediate

EXPERIENCE

DXC Technology | Rabat, Technopolis

.NET Development Engineer — JAN 2025 - Present

- Developing and maintaining large-scale enterprise applications using WebForms architecture.
- Improving system efficiency and scalability for risk management and claims processing solutions.
- Collaborating with cross-functional teams to streamline workflows and modernize legacy platforms.

.NET Analyst Developer — JUN 2024 - DEC 2024

- Contributing to complex financial and case management projects within an enterprise environment.
- Maintaining and optimizing legacy systems using C#, ASP.NET Framework, jQuery, and Visual Basic.

Fullstack .NET | Blazor Developer (Intern) — MAR 2024 - MAY 2024

- Developing web and mobile applications using ASP.NET Core Web API, Blazor, and .NET MAUI, seamlessly integrating vTiger CRM for enhanced functionality.
- Implementing clean architecture and design patterns to ensure scalable and maintainable solutions.

JobInTech | Université Internationale de Rabat, Technopolis

Fullstack .NET | Angular Developer (Intern) — OCT 2023 - FEB 2024

- Developing full-stack solutions using .NET Core, Angular, and RESTful APIs while applying best practices in software design.
- Strengthening problem-solving skills and software architecture knowledge while staying up-to-date with industry trends.

MEGADEV | Salé

.NET Web Developer (Intern) — Jun 2023 - Sep 2023

- Developing an AutoParc system with ASP.NET Core Razor Pages, handling maintenance, accident tracking, and document management.
- Designing key features to improve functionality and user experience.
- Working closely with the team to deliver efficient and scalable solutions.
